

Dutch Child Prevention Model

From protection to skill reinforcement

Hedy Goossens, Mieke Cotterink

0-2: Protection

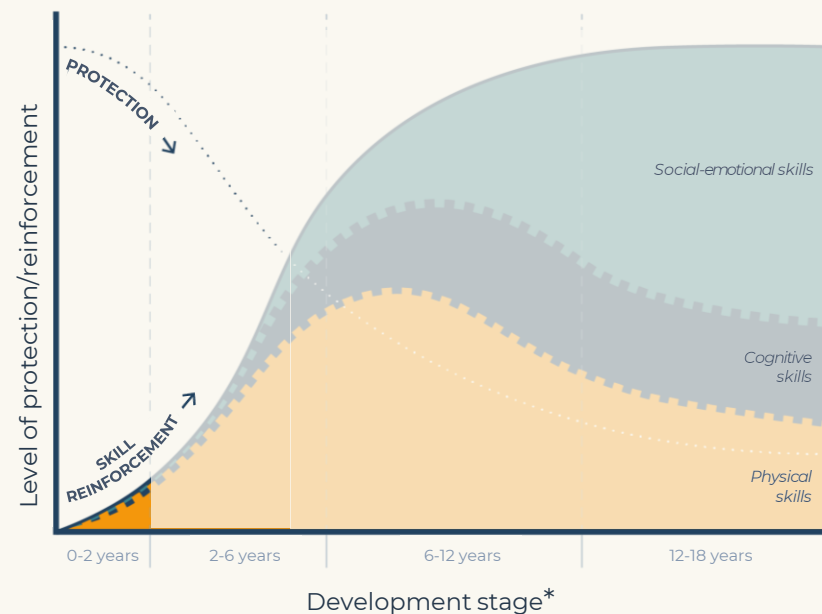

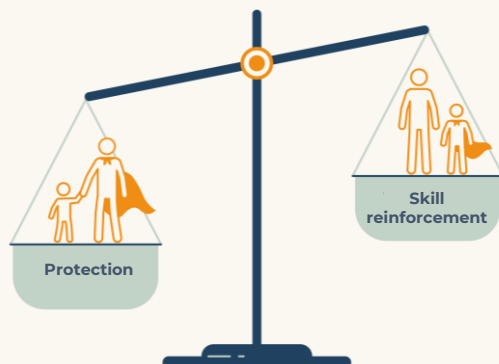

- ☐ Supervision
- ☐ Using resources
- ☐ Making environmental adptions

Examples for protection:

- Place stair gates
- Shield water
- Put hot liquids high away

Examples for reinforcement:

- tummy time
- Learning to climb stairs

*Each child develops at his own pace, the ages in the model are only a global indication.

Dutch Child Prevention Model

From protection to skill reinforcement

Hedy Goossens, Mieke Cotterink

12-18: Support in social-emotional skills

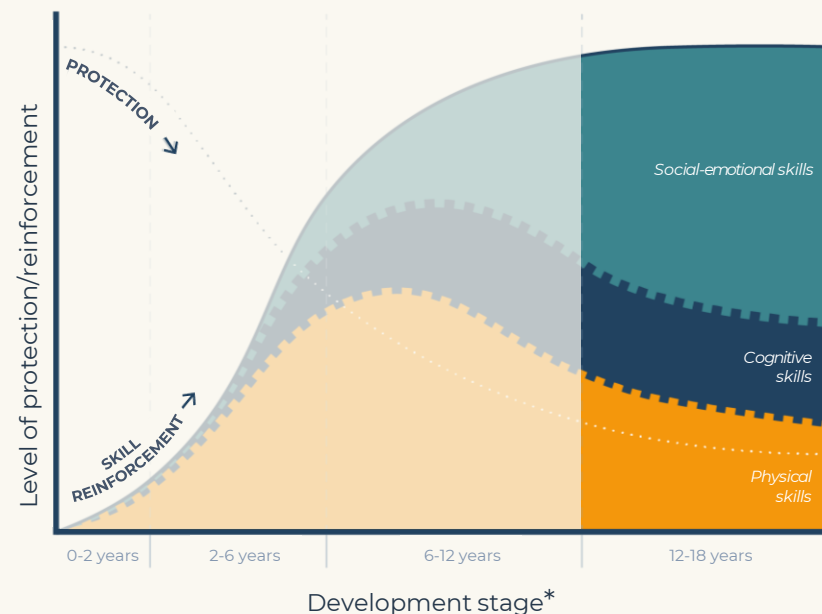

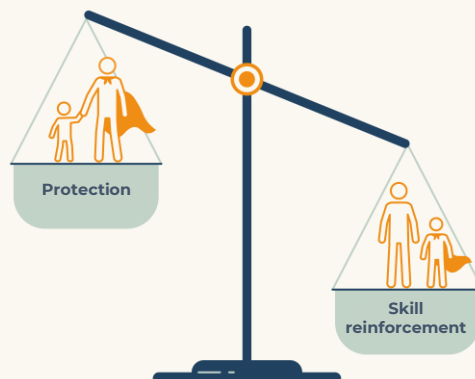

○ Help how to cope with age-related risks

Example for protection:

- Wearing personal protective equipment during sports

Example for reinforcement:

- Provide inspiration and tools to make a good assessment during risky actions or peer pressure

**Each child develops at his own pace, the ages in the model are only a global indication.*
