

We believe the focus should be shifted towards proactive learning

More users use it = more value

How could we improve the odds in lottery?

From reactive to proactive

From H&S to EHSQ

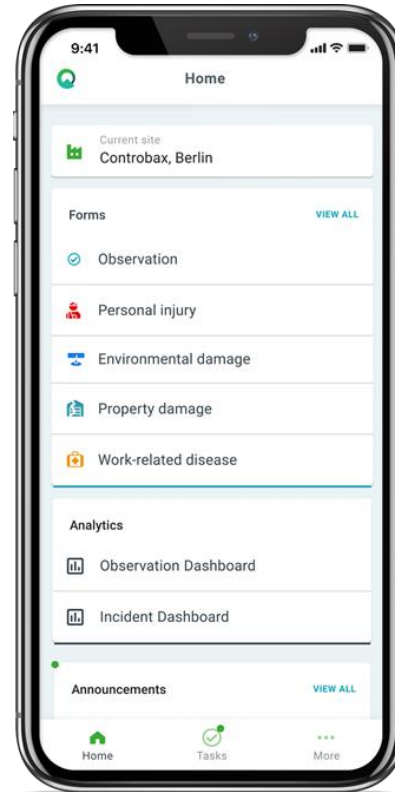

# The Solution:

## Standard tools with increasing room for flexibility

Secure an excellent EHS culture with an end-to-end process

**Report a large variety of incidents and observations across all devices and channels**

New case: Observation

Case type  
Positive observation

Time of occurrence  
20.01.2021 03:32 PM
