Safety & Standards

Topics

- 🗨️ Background
- 🗨️ Objectives
- 🗨️ The way data is captured in A&E departments
- 🗨️ The challenges in accessing the data and the hospitals involved in the pilot
- 🗨️ Thoughts for the future

HASS & LASS

- 🗨️ Home Accident Surveillance System & Leisure Accident Surveillance System
- 🗨️ 16 -18 Hospitals
- 🗨️ Interviews on site
- 🗨️ Stopped 2002
- 🗨️ 2008: *“the quality of NHS Accident & Emergency department data was inadequate for gaining insights into product-related injuries”* (2008, Ward, H. & Healy, G.)
- 🗨️ 2019: OPSS commissioned RoSPA to review the feasibility of collecting accident data relating to consumer products from the NHS Emergency Care Data Set (ECDS).

Objective

- The Feasibility of collecting product data and free text;
- Annual running cost;
- Willingness of staff and motivation required;
- Quality and representation of data;
- Format of extracted data and the time and resource required to analyse.
- Gap analysis on the volunteer sites – to determine the level of data currently collected
